*Transforming the Outdoor Living Experience™*

# DYNAMIC SOLUTIONS INNOVATION

Since 1984 Digger Specialties, Inc. (DSI) has been manufacturing quality products for the outdoor living industry.

At DSI we are continually working to provide solutions through innovative product development and design to bring the best products to our customers, the marketplace, and the home owner.

Our Regis® Aluminum Fencing offers a variety of colors, styles, and options to enhance your outdoor living experience. This premium line of fencing also provides a great investment in your home or business.

Digger Specialties, Inc. is proud to offer one of the strongest warranties in the industry. Our Regis® Aluminum fencing is covered by our Aluminum Lifetime Limited Warranty. This warranty demonstrates our faith in our product and our commitment to you.

Visit [diggerspecialties.com](http://diggerspecialties.com) to view and register your warranty.

Digger Specialties, Inc. is proud to be an American company manufacturing quality American made products at our plants in Indiana, North Carolina, Georgia, Pennsylvania, and Missouri.

## COMMITTED TO THE ENVIRONMENT AND OUR COMMUNITY

DSI is proud to be an environmentally aware company that continues to update our practices to reduce our carbon foot-print. DSI consistently recycles our cardboard, wood, steel banding, zinc die cast, and heat shrink scrap. DSI also utilizes both aluminum and vinyl extrusions that contain recycled content.

DSI is pleased to support our community by outsourcing a portion of our packaging functions to a local company that provides meaningful employment to individuals with disabilities.

## Optional Color

Gold Accent  
Fine Texture  
(Upcharge may apply)

Select Regis® accessories are available in an optional Gold Accent color. See pages 16 and 17 for more information on the items available.

# POWDER COATING PROCESS

## Exclusive DSI Powder Coating Process

DSI's proprietary 10 step powder coating process provides an uncompromising quality created by state-of-the-art technology. Our system is certified by the Powder Coating Institute providing peace of mind in your investment. Our powder coating is verified by the American Architectural Manufacturers Association and is covered by a Lifetime Limited Warranty.

**1** The raw premium-grade aluminum is inspected to be free of blemishes and is not exposed to the outdoor elements.

**2** The product enters a heated cleaning stage to remove extrusion debris and fabrication oils.

**3-6** **Clean:** City water rinse  
**Cleaner:** Recycling reverse osmosis water rinse  
**Cleanest:** Pure reverse osmosis water rinse  
**Sealer:** Dried-in-place aluminum sealer

**7-8** A 200 MPH air blast removes water drops from the pre-treated aluminum.  
A convection oven completes the dry-off process.

**9** Powder is applied with 18 automated and 2 manual spray guns. Compressed process air is dried to -35°F Dew Point for superior adhesion.

**10** The powder coating is then bonded and adhered to the aluminum substrate in a 400 degree cure stage.

# FEATURES & BENEFITS

## Notched Rails

Our notched rails secure the section into the routed holes of the post.

## Hidden E-Clips

Our patented Hidden Picket Fasteners eliminate scratches and unsightly screws.

**3000 Series  
E-Clip**

**4000 Series  
E-Clip**

**5000 Series

Patent #US 7,152,849 B2

## Welded Gates

Regis® Aluminum Gate rails and pickets are welded at each connection for added strength and durability.

## Assembled Sections

Regis® Aluminum Fencing sections come factory assembled for quick installation.

## Pool Code Approved

Regis® Aluminum Fencing combines safety with style. Fence models marked with this symbol comply with ASTM F2409 and F1908 for height and spacing. See individual model charts on pages 9 – 13 for availability and restrictions. Check with your local building code officials as local codes may differ.

## Puppy Picket Option (Short Picket Option)

Regis® Aluminum Fencing offers pet owners peace of mind. Fence models marked with this symbol offer the Puppy Picket Option (short picket option). See individual model charts on pages 9 – 13 for availability and restrictions. These added pickets help keep small animals in or out of your yard. For more information see Page 16.

## Routed System

In this system, the post is routed with pre-cut holes for the rails to be inserted. Sections come with notches on the end of each rail allowing them to be locked into the post.

**R** This symbol is used in the charts on the following pages to note which model and height combinations are available as a Routed System.

## Bracketed System

In this system, the post is blank and brackets are screwed to the post. Sections come with factory drilled holes on the end of each rail allowing them to be easily secured to the brackets.

**B** This symbol is used in the charts on the following pages to note which model and height combinations are available as a Bracketed System.

# ARCHED

PICKET TOP

# Arched Picket Top Style

Recognized by its curved design, the Arched Picket Top is a great decorative fence for landscaped and garden areas. With Spear point and finial options including Quad, Triad, or Fleur-de-Lis, this fence is sure to accent any outdoor living space.

4230  
48" Height

4230  
Flush Bottom Pool  
54" Height

# ALTERNATING SPEAR

# Alternating Spear Style

Alternating Spear Top offers the aesthetic appeal of pressed point pickets in alternating heights.

Flat Top Alternating Spear offers a modern design by combining the safety of a smooth top rail with the traditional alternating spears between the top and mid-rail.

Optional finials are available for both styles in Quad, Triad, or Fleur-de-Lis.

Universal Brackets wrap around posts on adjacent sides to create a 90 degree turn.

### Line Bracket

Line Brackets attach to the opposite sides of the post and are used for intermediate posts.

### End Bracket

End Brackets attach to one side of the post and terminate a fence line.

# SECTION PACKAGING

## Fence Stacker Unit

### Full Bundle Quantity of 3000 and 4000 Series Sections

Regis® 3000 and 4000 sections are shipped in our Fence Stacker Unit. These custom built shipping units are designed with spacers to prevent shifting during shipment. Every Fence Stacker Unit is a fully enclosed six-sided unit with support rails for easy access.

Simply slide out each individual section as needed. The remaining sections stay secure and protected.

Each fence section is individually wrapped for protection during shipment.

All Fence Stacker Units are built with wood frames and corner gussets for strength.

All Fence Stacker Units are covered in cardboard and heat wrapped for protection from the weather.

## Skid

### All 5000 Series Sections and Less Than Full Bundle Quantities of 3000 and 4000 Series Sections

Sections are placed on a skid with foam between each section.

The skid is covered in cardboard and a wood frame is built around the sections for strength.

The skid is heat wrapped for protection from the weather.
